Married With{out} Spouses

Married With{out} Spouses empowers women to strive for excellence in Christ! The reader will learn how to successfully live as a daughter of the King.

In this book, you will find four Biblical examples of women who were married to unsaved husbands: Deborah, Abigail, Eunice and Naomi. Each story identifies a unique type of woman, man, marriage and outcome that will encourage the reader to examine her own situation and compare it to the Word of God. She will become aware of the victory and dynamic ministry the Lord has ordained specifically for her!
